

Speaker 1: Arkansas has a plan for a COVID-19 vaccine when it comes time to hand one out. Pfizer's vaccine will be reviewed by the FDA for emergency approval. This is going to happen December 10th. After that, it will be reviewed again by an advisory committee. Arkansas is expecting to get an initial total of 45,000 to 90,000 doses. The governor isn't planning to mandate any group to be vaccinated. Whenever one does come out, the Country Club Village Retirement Home in Hot Springs is on the CDC's priority list. It enrolled in a vaccine program, which gives them [00:00:30] first priority on vials when they're available. Not only will residents and staff get the vaccine, Walgreens and CVS will deliver them.
